PRO-FIND *Series*

Precision Pinpointing

- Ferrous Tone ID
- Waterproof to 3 m (10 ft)
- Audio & vibration indication
- Adjustable sensitivity
- High visibility
- Holster & lanyard

Three great models available:

- PRO-FIND 15
- PRO-FIND 20
- PRO-FIND 35

LOCATE TARGETS WITH
SPEED AND ACCURACY

MINELAB

PRO-FIND +Series
Precision Pinpointing

DIF Technology
DIF

A PRO-FIND Series Pinpointer is an essential part of your detecting tool kit.

PRO-FIND Series pinpointers help you to accurately locate targets inside a small hole or crevice where a metal detector coil cannot fit. This results in smaller holes, less environmental disruption and faster target recovery time.

Minelab's DIF technology significantly reduces interference with an operating metal detector when the pinpointer is switched off, by disengaging the pinpointer's magnetic field and stopping subsequent circulating electrical currents. Therefore DIF eliminates many of the false signals associated with other pinpointers. This is especially important when using sensitive, high performance metal detectors.

Ferrous Tone ID
Two different responses help you to identify ferrous junk from non-ferrous treasure. Great to use with non-discriminating detectors.

Waterproof to 3 m / 10 ft
Rugged waterproof design ideal for beach and river pinpointing. The perfect companion for a waterproof detector.

Audio and vibration indication
Audio tones and vibration intensify as the probe approaches the target making target recovery easier, especially underwater.

Adjustable sensitivity
Five sensitivity levels allow you to precisely adjust for maximum depth and minimum noise in all ground conditions. Easily adjustable with separate +/– buttons.

High visibility — with lost-alarm
The PRO-FIND's bright yellow handgrip is clearly visible for easy location, so you won't leave it behind after you dig. Quickly locate your forgotten pinpointer with the handy lost-alarm.

Holster and lanyard included
A lanyard and a tough, semi-rigid holster that attaches to any belt will keep your PRO-FIND at the ready.
